

TELL THE PEOPLE WHAT THEY WANT

SILVER ADVOCATES EXPLAIN THEIR POSITION.

Document Issued From St. Louis to the People of the United States Urging the Nomination of Senator Teller for the Presidency—Text of Document.

St. Louis, Mo., June 20.—The silver men have issued an address to the people of the United States. Having declared in effect that the party should be the means and not the end in view, the address continues: "Recognizing the value and the splendid achievements of political parties in this country, as elsewhere, we are not yet constrained to believe that for more than twenty years no one of them has been entirely sufficient for the needs of the people. And there has been growing in this country—swelling with each recurrence of national election—a great mass of independent thinkers and voters, which, falling within itself to control, has gravitated between the two great parties."

The record of the years between 1872 is rehearsed as tending to prove this point. The election of 1876 is granted to be a possible exception. Commenting on this record, the address goes on: "It is not that the people have not felt the stirrings of determination that this inaction has endured but because of the rule of the party which has largely controlled men in and out of office. It has become a source of reproach to any man that he should dare to renounce allegiance to organization. "We do not arrogate to ourselves one iota more of intelligence, patriotism or courage than is possessed by any of our fellow-citizens. But we feel that the time has come for the performance of a duty to the country, and for our part, though we shall stand alone, we will make an endeavor in the direction of that duty."

"If the voices which have sounded to us from every state in the union are an indication of the real feeling, this year is the appointed time for the people to assert themselves, through such mediums as may give best promise of the achievement of justice."

The pre-eminence of the money question as an issue is set forth and argument adduced in support of the proposition. A plea for bimetalism follows, and the address concludes thus:

"The restoration of bimetalism by this country will double the basis of our money system. In time it will double the stock of primary money of the world—will stop falling prices and steadily elevate them until they will regain their normal relation to the volume of debts and credits in the world. Bimetalism will help to bring about the great hope of every social reformer, every believer in the advancement of the race who realizes that the instability of prices has been the deadly foe of our toilers and the servant of the foreign interest-gatherer. Bimetalism will help to bring the time when a certain expenditure of human toil will produce a certain financial result."

"Is not this so great an end that all who believe in the possibility of attaining it by the means proposed can yield something of their partisanship, both in conventions and at the polls? "It is in the hope that the masses and the remaining conventions will have the courage and the generosity to unite for this purpose that we have dared to offer our views to the people of the United States, and because in the past there has lacked a rallying point for the masses, who hold as we do to this belief, we venture an act trusting it will be received in the same spirit of conciliation, concession and hope with which we put it forth."

"We invoke the union of all men and all parties who believe that the time has come for the triumph of justice. With this in view, we offer to the forthcoming conventions and to the people the name of a man for the presidency of the United States whose life in public and in private represents those distinguished virtues which adorned the days and the deeds of the earlier time of this republic; a return to which virtues is requisite for the prosperity and contentment of the people and the perpetuity and commanding example of free institutions. That name is Henry M. Teller—a man of the people and for the people. We believe that the people of the United States have him in their hearts as he has had their interests in his purpose through all the work of an exalted life."

"In submitting this name to the people we remind them that just a generation ago, from the heart of the boundless west and touched by the finger of God, there arose an emancipator who was powerful in the work of human deliverance. By his wisdom and courage, providentially directed, millions were set free and the nation kept in its holy union. If others shall see this opportunity as we see it, if our fellow citizens shall see this duty as we see it, that sublime history may be repeated and another man—clothed in the majesty of devotion to the race—will be lifted to power where, by his wisdom and courage, providentially directed, more millions may be made free of chains as galling as those of actual slavery, and the nation may be preserved in the unity of its mission to the world."

HANNA IS CHAIRMAN.

Elected to Head the Republican National Committee.

St. Louis, Mo., June 20.—The republican national committee on Friday elected Marcus A. While many convention visitors remain in the city, almost all the state delegations have left for their respective homes, and compared with the first part of the week the streets and hotel corridors have a somewhat deserted look. A majority of the delegations took last night's trains from the city, and only a few remain.

ARKANSAS SPEAKS.

Democratic State Convention Adopts Free-Silver Platform.

Little Rock, Ark., June 20.—The democratic state convention was in session until 2:15 o'clock Friday, the greater part of the time being taken up in a hot fight over the question of expressing a choice for a presidential candidate. A resolution instructing the national delegates for Bland was vigorously opposed by Senators Jones and Berry, but was finally adopted, by a vote of 420 to 327. The platform adopted makes no reference to the national administration. The financial plank favors the coinage of silver at the ratio of 16 to one.

Hanna Selects Candidates.

St. Louis, Mo., June 20.—From an authoritative source it is learned that Chairman Mark Hanna of the republican national committee has decided upon the secretary and treasurer of his executive committee, both of which positions he has power to fill. The story is that Maj. Charles L. Dick of Akron, O., will get the secretaryship, while Sylvester Ewart of Cleveland will be made treasurer. It is also understood that ex-committee Hahn of Ohio will be placed upon the executive committee by Mr. Hanna.

Work Stopped by Venezuelans.

Georgetown, British Guiana, June 20.—A British official with 100 laborers was opening a road from Barima to the Cuyuni river, within the Schomburgk line, when they were stopped by armed Venezuelans. Orders have been sent from Georgetown to the British officials not to offer violent resistance to the Venezuelans, but to withdraw under protest. No excitement has been caused in the country by the incident.

Satoli's Probable Successor.

London, June 20.—A dispatch to the Times from Rome says that it is believed in well-informed circles there that Mgr. B. Lorenzelli, internuncio at The Hague, will be appointed apostolic delegate to the United States to succeed Cardinal Satoli, but this is not finally settled.

Montana Democratic Convention.

Butte, Mont., June 20.—In the democratic convention today the fight is over the delegates to the Chicago convention. The platform will be a straight-out declaration for the free coinage of silver at the ratio of 16 to 1.

Teller Will Speak in Kansas City.

Topeka, Kan., June 20.—The Kansas City league is in communication with Senator Teller, who says he will stop at Topeka on his return to Denver next Wednesday to speak. This information has been sent out, and it is estimated that 20,000 people will come here on special trains to see and hear him.

THE TRADE REVIEW BY DUN & COMPANY

SIGNS OF A BUSINESS REVIVAL APPARENT.

They Report Increased Confidence Apparent in Monetary Circles—Slightly Lower Average in Prices—The Failures of Last Year and This Year Are Compared.

New York, June 20.—R. G. Dun & Co.'s Weekly Review of Trade says: "There are continued signs that a gain in business has begun. Stocks have gone higher than they were before the artificial break ten days ago, wheat and cotton are in better demand, and there is more confidence in monetary circles, and the tendency toward shrinkage in great industries seems in some measure, at least, to be checked. While the outcome of the democratic convention is uncertain, and the great crops are not yet wholly beyond danger, a sure and strong improvement could hardly be expected, but the tone in business circles has grown distinctly more hopeful."

"Wheat receipts at the west, 2,418,766 bushels for the week, against 1,113,143 bushels last year, indicate no slackening of supply, nor fear of farmers for the future. Atlantic exports, 2,406,496 bushels, flour included, for the week, against 1,393,781 bushels last year, are large for the season, but with new wheat just beginning to move, the supply is ample."

"The advance in cotton had no visible cause in crop prospects of movement, though receipts at ports have been light. Accounts still indicate a large yield, and the most substantial news of a helpful nature is that the tone in manufacturing circles is more cheerful."

"Textile manufacturers do not gain, and the assignment of a large worsted mill is thought due to special causes rather than to the general influences which curtail or temporarily stop production of many others. There is rather more hopefulness, which is felt in a rest after the decline of wools, but prices are no lower and sales do not increase. Manufacturers await orders, which clothiers hope soon to give, but are not yet ready, and the only changes in prices are declines of 5 to 10 per cent in some very low grade goods. The change discloses no new weakness, but a belief that the time has come when sales can be effected by reduction, and large sales are now reported. The stocks of dealers are believed to be so low that replenishment would now make a great change in the condition of the industry."

"The waiting in iron and steel brings a slightly lower average of prices, the lowest since April 1, and only 1.8 per cent above the lowest of the year, though the combinations make no change in quotations. Since coke was advanced to \$2 per ton the ovens at work have decreased 33 per cent and the weekly output is 60,463 tons, or 35 per cent."

"The failures of the week have been 276 in the United States, against 228 last year, and twenty-eight in Canada, against thirty-one last year."

SILVER IN IDAHO.

People There Indorse the Action of Dubois and the Other Bolters.

Boise, Idaho, June 20.—The sentiment of the people of Idaho is beyond question overwhelmingly in favor of the bolting silver delegates at the St. Louis republican convention. They believe implicitly that the free and unlimited coinage of silver at the ratio of 16 to 1 by the United States, independent of any other nation on earth, thus placing our money system on foundations laid by the fathers of the republic, would result in vast benefit, not merely to the people of the west, but to the entire country. No cry of party expediency will lure them from bimetalism. It will be utterly impossible for any man or any party to carry the popular vote of Idaho who antagonizes the free silver idea. The adoption of a gold plank by the national Republican convention takes Idaho from the republican column.

United Workmen Elect Officers.

Buffalo, N. Y., June 20.—Officers of the A. O. U. W. have been elected as follows: Supreme master workman, J. G. Tate of Nebraska; supreme foreman, W. S. Rolson of Texas; supreme overseer, H. C. Sessions of South Dakota; supreme guide, George M. Lange of Minnesota; supreme watchman, Thomas Cupit of Utah; trustees, R. B. Farren of Connecticut; Louis Anfenger of Colorado.

Reed to Run for Congress Again.

Portland, Me., June 20.—Thomas Brackett Reed will be tendered a renomination to congress by the First district, and it is announced that he has consented to stand, as he greatly desires to be a member of the Fifty-fourth congress in preference to resuming his law practice, from which he has been practically separated for a long time.

Dropped Dead at Toronto.

Toronto, Ont., June 20.—John Beverly Robinson, ex-lieutenant governor of Ontario, dropped dead while on the platform at the Massey Music hall Friday night in attendance on a political meeting held by Sir Charles Tupper. Mr. Robinson was 75 years of age.

NOW AFTER RHODES WITH A SHARP PROD

TRANSVAAL TO PROSECUTE SOUTH AFRICA'S DICTATOR.

President Kruger's Government Serves Notice On Great Britain That It Proposes to Bring the Other Raiders to Trial—Venezuelan Negotiations Likely to Soon End.

Cape Town, June 20.—The secretary of state for the Transvaal has telegraphed to the British high commissioner here saying that, having in view the welfare and peace of South Africa, the Transvaal government is convinced that the proofs in its possession, which are at the disposal of Great Britain, now completely justify and compel the bringing to trial of Cecil Rhodes, Alfred Beit and Dr. Harris, all of the British South Africa company and connected with the raid of the Transvaal. The secretary adds that the Transvaal republic is obliged to press this step on Great Britain and also to urge that all control of the British Chartered South Africa company be transferred to Great Britain.

PROGRESS OF NEGOTIATIONS.

Venezuelan Matters in a Fair Way to Become Settled.

London, June 20.—The under secretary for foreign affairs, George Curzon, answering a question in the house of commons regarding the Venezuelan situation, said that the British ambassador at Washington, Sir Julian Pauncefote, was authorized to receive and report upon proposals made by the Venezuelan representative at Washington. The latter, Mr. Curzon continued had been informed of this, but up to the present had not made any proposal, and negotiations were proceeding with the United States, both in regard to a definite frontier and the arbitration of the frontier question with Venezuela under proper conditions of discussion. The latter question, Mr. Curzon further stated, does not offer obstacles to the conclusion of a general arrangement with respect to arbitration which the government hoped to see concluded.

NICHOLSON LAW UPHELD.

The Supreme Court of Indiana Passes Upon It.

Indianapolis, Ind., June 20.—The Supreme court Friday decided the consolidated liquor cases, involving the constitutionality of what is known as the Nicholson law. The law is found to be valid. It provides that liquor selling may not be carried on in the same room with other business; gives the county commissioners discretion to inquire into circumstances in passing on applications for license. The court holds that the remonstrance feature of the law, which the liquor people denounced, is virtual local option, and is valid. Remonstrances must be special against applicants, and not general, but signatures to remonstrances may not be withdrawn when the case has been submitted.

Will Act in the Delgado Case.

Washington, June 20.—Instructions of a direct and positive character have been sent to the United States minister at Madrid, Mr. Hannis Taylor, to make strong representations to the Spanish government with a view to securing reparation for indignities to Dr. Jose Delgado and other American citizens in Cuba. The instructions went by mail some days ago, and should reach Madrid at about the present time. A cablegram has been sent to Mr. Taylor at Paris asking that he return to Madrid as soon as he is able to travel in order to attend to the matter.

New Triple Alliance Is Talked.

Madrid, June 20.—"France and Russia have shown Spain such steadfast sympathy," says La Epoca, a ministerial organ, "as to justify the belief that if an alliance should be necessary there would be no difficulty in the way." All the Madrid papers inquire as to the significance of the declaration. It has attracted much notice in political and financial circles, and in diplomatic circles, too. In fact, La Epoca's statements have been telegraphed to many foreign governments.

Wage Scale Not Settled.

Pittsburg, Pa., June 20.—The steel sheet manufacturers' and workers' committees held a conference Friday on the wage scale, but adjourned after an eight-hour session until next week, without having reached an agreement. The manufacturers demanded a reduction of 12 per cent on wages of shear-men, rollers, and heaters. The workmen offered to compromise by a cut in the day men's wages, but refused to agree to a reduction in the skilled labor scale.

Matabele Rising Serious.

London, June 20.—Telegrams received from Bulawayo indicate that the Mashonas have joined the Matabele rising and the situation is much more grave. There are numerous cases of isolated soldiers being massacred. The people around Salisbury and Fort Charter have been ordered into laager. The whole Mazoe district is full of revolt. Another dispatch from Bulawayo says that the situation is so serious that the Cape mounted infantry has been ordered to Mashonaland and the imperial troops have been ordered up from Mafeking.

PIERPONT MORGAN TESTIFIES.

Financier Before the Senate Bond Investigating Committee.

New York, June 20.—J. Pierpont Morgan was before the senate bond investigating committee Friday to be examined as to what he knew regarding government bond issues of the last three years. His examination related mainly to the issue of last year, the whole of which was subscribed by the Morgan-Belmont syndicate. No facts not already known to the public were elicited. Mr. Morgan refused to tell what the profits of the syndicate were, taking the ground that that was a private matter into which the committee had no right to inquire. John A. Stewart, president of the United States Trust company was also examined, particularly to the popular loan of this year. Both Mr. Stewart and Mr. Morgan said that they engaged in the bond subscriptions more from patriotic motives than from a desire to profit by the transactions.

POLITICS IN INDIANA.

Gen. Matthews Trying to Heal Dissensions in His Party.

Indianapolis, Ind., June 20.—Governor Matthews called Governor Holt of the regular democratic state central committee and Chairman Clark of the free silver state central committee in consultation Friday at the executive parlors in an effort to bring about an understanding between the two wings of the party. Chairman Holt said that he believed a conservative policy was best for both sides to adopt, but as the free silver men were practically in control of the state, it was not for him to make suggestions. Mr. Clark expressed a desire for harmony, but added that the free silver men had been so embittered by the attacks of the "sound money" democrats that he questioned if any overtures would be considered. Nothing definite was accomplished, but the party leaders hope that an understanding may be reached and the factional breach entirely healed.

Silver Call at Des Moines, Iowa.

Des Moines, Iowa, June 20.—A call has been issued to all Polk county silver men to meet in mass convention Thursday evening. It is signed by Judge C. C. Cole, president, and A. P. Lowery, secretary of the Polk County Silver club. There is talk of making a full county silver ticket against the regular republican ticket. It is expected that the democrats and populists will indorse it. Judge William Connor, a life-long republican, says in an interview that he will not vote for McKinley and Hobart on a gold platform. The republican managers do not fear a wide defection. They are arranging for a ratification meeting next week.

Venezuela on a Gold Basis.

Washington, June 20.—Minister Andrade of Venezuela has received advice from Caracas as to the final ratification of the constitutional amendment by which Venezuela adopts the gold standard. President Crespo advised congress some months ago to meet the prevailing agitation for a depreciated currency by a constitutional enactment. Congress passed the law, and it has now been confirmed by all the states.

Mexico Interested in Silver.

City of Mexico, June 20.—The news of McKinley's nomination and the bolt of the silver delegates excites great interest. Public interest here, while strongly for silver, is also apprehensive of the United States going on a silver basis, as that would insure ruin to Mexico's growing manufacturing industry. Mexico fears her present prosperity would be imperiled by competition with the United States were it on a silver basis.

Object to Foreign Dictation.

Denver, Colo., June 20.—The National Council O. U. A. M., now in session here, has adopted a resolution declaring "that we deprecate the tendency of our national political parties to ask or concede to foreign countries, directly or indirectly, the right of shaping or defining the internal policy of this nation in any manner whatever, or that national legislation shall be withheld at the behest of any foreign power."

Indiana Epworth League Meets.

Anderson, Ind., June 20.—The Indiana State Epworth league conference will be held in this city June 25 to 28. Meetings will be held in the new armory. Half rates have been secured on the railroads and interesting programs have been arranged for all services. A large attendance is anticipated.

To Notify the Nominees.

St. Louis, Mo., June 20.—The committee appointed to notify Major McKinley of his nomination has decided to proceed to Canton on June 29 and perform that office. Garret A. Hobart will also be notified soon.

That Cuban Flag at St. Louis.

Madrid, June 20.—The news published here that a Cuban flag was hoisted in the St. Louis convention and was greeted with cheers has excited unfavorable comment.

Leadville Silver Miners Strike.

Leadville, Colo., June 20.—At 11 o'clock last night 1,000 miners in the this camp walked out. They demand \$3 a day and are now receiving only \$2.50. A number of the mines here are paying \$3 a day, but many properties claim they can only afford \$2.50. The strike is ordered by the Miners' union.

OCONTO MURDERER ATTEMPTED SUICIDE

SOAKS SULPHUR MATCH HEADS IN WATER.

Drank Most of the Compound Before a Fellow Prisoner Stopped Him—Says He Will Never Appear in Court—Democrats to Test Apportionment—Other State Dispatches.

Oconto, Wis., June 20.—[Special]—Albert Swanson, who is in jail here on the charge of murder, made an attempt at suicide last night. He secured a bunch of matches and soaked them in water. Then he drank part of the contents, but was stopped by another prisoner. He will probably recover, but says he will never appear for trial. Two weeks ago he tried to commit suicide by taking paris green.

To Test Apportionment Law.

Madison, Wis., June 20.—There will be a suit to test the reapportionment bill passed at the last session of the Wisconsin legislature. In the supreme court Friday Attorney Burr W. Jones filed a direct petition to the court in the name of State Senator Michael Kruska of Milwaukee, the original petitioner, asking that leave be granted him to begin a suit to set aside the apportionment law. An order to that effect was immediately granted without argument, and the case will be heard at the August meeting of the Supreme court. Owing to the refusal of Attorney General W. H. Mylrea to bring suit the consent of the Supreme court to the commencement of the action became necessary before it could be brought.

Milwaukee Democrats for Gold.

Milwaukee, Wis., June 20.—"Sound money" democrats carried the majority of the caucusses held Friday to elect delegates to the state convention, which will be held in Milwaukee Tuesday. In the twenty-one wards of the city the silver men secured only about one-third of the delegates. No returns from the towns and villages had been received up to midnight, but it is believed the results will be practically the same as they were in the city. It is believed the gold men will experience little difficulty in controlling the convention.

Thirty Persons Poisoned.

Downing, Wis., June 20.—Thirty persons were made sick by eating pressed beef Thursday evening, with symptoms of poisoning. Whole families are affected with cramping, purging, and vomiting. Several are not expected to recover. Marshal Seymour, Culver Thurber, Frank Croll, Dick Park, and the Stiles family are in a critical condition. A specimen of the meat has been sent to Chicago for analysis.

To Lead Wisconsin Free-Silver Men.

Milwaukee, Wis., June 20.—It is stated that W. C. Silverthorn of Wausau will lead the free silver forces in the democratic state convention.

BASEBALL REPORT.

Games Played in the National League Yesterday.

The people who were at League park, Cleveland, yesterday afternoon witnessed a game the like of which probably was never seen before upon a diamond, and which, it is to be hoped, will never be seen again. Umpire Lynch announced that he would no longer umpire, after offering to strike Captain Oliver Tebeau and being only kept from so doing by some Chicago players. Tebeau was partly to blame. The game was not protested, but Umpire Lynch has been, by Secretary Howard Robeson of the Cleveland club, to President N. E. Young, and a new umpire asked for. WOODLAWN CLAY IN THE CYCLONE Janesville Brick Material Was Destroyed By the St. Louis Storm.

Some time ago L. O. DeForest of the Woodlawn Brick Company, sent a barrel of the celebrated clay owned by that firm, to the Ross-Keller Brick Machine Company, at St. Louis, to be made up into samples. Getting no word from the company, and not receiving the bricks, Mr. DeForest wrote the company to see what the trouble was. In reply, the company wrote that the clay had never reached them. "We get a notice of its arrival on the day of the cyclone," the letter stated. "We then sent a dray for it. The man got the clay during the afternoon, and was on his way to our works when he was caught in the cyclone. Neither man nor team has been seen since, and no trace of him has been found. We have waited, from day to day, hoping that he would turn up. If you will send us another lot of clay, we will test it, and make it up into the finest samples you ever saw."

FINE LECTURE ON LINCOLN

Rev. Dr. Olin A. Curtis speaks to a Janesville audience last night. Rev. Dr. Olin A. Curtis lectured on "Abraham Lincoln" at the Court Street church last evening, under the auspices of the Epworth League. Rev. Dr. Halsey introduced the speaker, who told of the life of Lincoln in an intensely interesting vein. The lecture was replete with good things, and in closing, Rev. Mr. Curtis said: "Washington was the founder of our republic; Grant was not only the greatest general in the civil war, but he was the only consummate general we have ever had;—but if we were called upon to put one man over against all men of all nations as a man they would have to make a place for, and keep him there as a typical American, that man would be—George Washington—not Ulysses Grant—but Abraham Lincoln."

After the lecture, many of Dr. Curtis' friends, embraced the opportunity of shaking hands with him.

DIVORCED WOMAN NOT LIABLE

Interesting Case Decided by Judge Phelps Yesterday.

KLINCHIE cannot collect his bill from Mrs. Sarah Baldwin. He must get the cash from E. W. Baldwin, so says the court, so "so say we all." Klinchie is a Beloit groceryman.

Mrs. Sarah Baldwin is the divorced wife of E. W. Baldwin, and the groceries in question—\$175 worth were eaten by the Baldwin boarders, for at the time of the eating, the Baldwins were running a boarding house. Then they disagreed, and a divorce followed. Klinchie had not been paid, so he sued Mrs. Baldwin. She denied all liability, and said her former husband was responsible. In this contention Judge Phelps coincided, and the decision was in her favor. E. D. McGowan was Mrs. Baldwin's attorney, while William Smith appeared for Klinchie.

SMALL PROFIT IN THE BALL GAME

Doctors' and Dentists' Contest Was Not a Financial Success.

HE profits of the doctors-dentists ball game were not large. In the first place the amount taken in at the gate wouldn't pay a drunk's fine, but the climax was reached, when, during the excitement of the game, one of the "kids" quietly stole the catcher's glove valued at five dollars. This had to be put up on the "expense account." Subtracting the same from the receipts, left very little cash for the Associated Charities and the old books are plenty large enough to keep account of it.

DEATH ENDS EARTHLY WOES

Frederick W. Richardson.

Frederick W. Richardson died at his home on Washington street at 1.15 o'clock yesterday afternoon, aged 43 years, and the funeral will be held from his late home, No. 8 Washington street, at 3 o'clock Sunday afternoon.

A quarter of a century of intense suffering was ended when the death angel sent the final summons to Mr. Richardson, and but few people are called upon to bear the portion of pain that was allotted to him. Twenty-five years ago he became the victim of rheumatism, the disease becoming seated in his knee. At first the attack was a light one, but continued to grow worse. Finally Mr. Richardson abandoned his business and went in search of health. He visited nearly every well known resort in the United States, but without benefit. Five years ago, finding that there was no relief to be had he returned to Janesville to die. Nobody knows the torture he has undergone in these long years, many of which were spent in bed. The closing chapters of his life had been made as comfortable as possible, and careful nursing and skilled physicians allayed the pain as much as they could. It had been known for some time that the end was near, and when the end came, he sank to rest peacefully and quietly.

Mr. Richardson was born in the town of Porter, Rock county, August 20, 1853. For a number of years he was engaged in the shoe business, with his brothers, A. Richardson & Bro. Later he went to Whitewater, and from there to La Crosse, being engaged in the shoe business in both places. It was at the latter city that his disease became so acute as to compel him to abandon business and make his fruitless pilgrimage in search of the relief that was denied him. Personally, and in a business way, Mr. Richardson made many friends who admired him for his true worth. To them, and to the relatives, who will feel his loss keenly, there is comfort in the thought that his sufferings are at an end; that the patient spirit is freed from the pains of earth and at rest in the home above.

Mr. Richardson left three brothers, and two sisters, they being: John W. Alex. Richardson of this city; T. C. Richardson of Evansville; Lizzie H. Richardson of Janesville, and Lucy G. Vanberg of Edgerton.

Potter Hart.

Potter Hart, who passed away at Colorado Springs, Col., yesterday, was for many years a prominent figure in the lumber business of Chicago and Michigan. Born at Hartford, Cortland county, N. Y., on February 24, 1833. He had a successful business career, but when forty years of age and thereafter he was obliged by increasing bodily infirmities to give up his active life. Of late years he had been a patient, cheerful, uncomplaining sufferer. He loved Chicago and refused to seek health elsewhere until very recently. In Colorado he found temporary relief, but while writing home of his improvement the deadly Bright's disease with which his sufferings ended, suddenly relieved him from the pains of half a life time. His widow will bring the remains to Chicago and funeral services will be held at his late residence, 149 Ashland boulevard at a date to be announced later—Chicago Times Herald.

Mr. Hart was a brother of Mrs. Cyrus Miner and Miss Louise Hart of this city.

Ezra Bingham.

"Uncle Ezra" Bingham of Lake Koshkonong, died yesterday morning at his home at the ripe old age of ninety-one years. He had been sick but a short time. Funeral services

will be conducted from the Koshkonong home tomorrow afternoon at 2 o'clock.

THE ARMY PARADE TONIGHT

Salvation Soldiers Will Keep on The Side Streets However.

THE Salvation Army has decided not to mix up with the police just yet and to avoid trouble. Captain Allen has consulted Chief of Police Acheson and the agreement is that the Army may parade on side streets. Capt. Allen says that just for a "test case" they may take a trip down Milwaukee street, even if they do land in jail. The army promise to make their first appearance tonight.

"I am told that under Janesville ordinances the army is classed as 'nuisance' said Capt. Allen. 'That is not fair. We are doing a grand good work and are not a nuisance.'"

A Word to the Liverymen.

And owners of road and driving horses. If you wish especial attention paid to the most essential part of the horse, his feet, take notice that I am permanently located with Mosely & Leary, blacksmiths on Dodge street and will give my entire attention to the sore footed, corns and interfering horses a specialty. Forty years experience ought to be worth something. Will guarantee the best horse shoeing in the city. Respectfully, Jas. S. Clark, the veteran horse shoer.

PALACE ON WHEELS ROLLS INTO TOWN

VESTIBULE TRAIN ON THE C. & N. W. A BEAUTY.

The New Wagner Cars Are the Finest That Money Will Build, and The Train As a Whole Is The Finest One In the Company's Service.

EW Janesville people realize that the finest train on the C. & N. W. system rolls into Janesville every night at 9:30 o'clock, but such is the case. The "vestibule" is made up of the finest Wagner palace cars that money will build. In interior appearance it is exceedingly handsome, all the cars being of uniform color and decoration. From end to end the train is vestibuled with broad plate glass vestibules which completely inclose the platforms and add greatly to the beauty of the train. The interior of each car is an artistic study in beautiful wood, soft plush and magnificent upholstery. No two cars are decorated upon the same order, and the passenger who makes a tour of the train is treated to a series of delightful surprises, yet the tints and tones and colorings of the woods and plush and leather and tapestry are all soft and restful, and in none of the cars are of the brilliant order.

Elegant Compartment Car.

Most admired of all the cars of this train was the compartment car. This car contains ten private state rooms, and each room (or compartment) occupies the entire width of the car, with the exception of an aisle at the side, and it is provided with a double upper and lower berth and equipped with every toilet convenience. The compartments are connected by sliding doors, and can be arranged en suite or used separately. The doors, wainscoting and partitions are of mahogany oak, natural cherry and various other woods artistically carved, and the walls are covered with silk tapestry in colors that harmonize with the woodwork and furniture. The ceiling of each room is of the empire dome contour, from the center of which depends an ornamental chandelier. Electric bells are provided for summoning attendants, and occupants have at their command every facility for luxurious comfort and convenience.

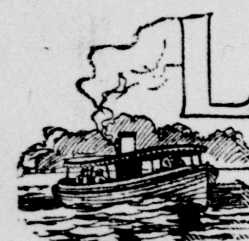

The Handsome "Diner."

The dining car, "Illinois," is fitted in beautiful oak, artistically carved, plate glass mirrors and upholstery of a light tint, that gives the car a more cheerful appearance. Various niches and tiny shelves hold vases of pretty blossoms, which were closely approached in beauty by the snowy linen, shining silver, sparkling glass and dainty china. The interior is admirably arranged, so as to give the greatest amount of room to the guests, and the service is admirable.

Another car which attracted attention was a sleeper divided into what might be termed a series of salons, each division containing from four to six sections. The general effect of this arrangement is very pleasing, and it gives an opportunity for some very artistic decorative work. The interior wood work of this car, the Bombay, is entirely of South American mahogany, the decoration being an inlay of mosaic work, that of the paneling and berth fronts being wrought in wreaths of laurel and oak leaves and acorns. Elaborate carving has been dispensed with, the only work of that character being just below the deck line, where it has been used in an effective manner. The dome contour of the deck ceiling provides facilities for excellent ventilation, and the chandeliers are of a special ornamental design, corresponding with the general interior of the cars.

TO TAKE A MOONLIGHT RIDE.

Rusk Lyceum Plans an Excursion—Eastern Star Picnic Wednesday.

UNA's rays are beginning to turn the night into day, just now, and "moonlight excursions" are in order. The members of the Rusk Lyceum and a number of invited guests will wind up the season's study with a moonlight ride and dance, next Monday evening. The steamer Columbia has been chartered, and the dance will occur at Crystal Springs Park. The members of Janesville Chapter, Order of the Eastern Star, will hold a picnic near the Four Mile bridge next Wednesday, and the Masons have been invited to join with them in the celebration. The Columbia will take the party up the river in the morning. Such members of the lodges as desire, will of course, attend the masonic picnic at Mineral Point on that day, but the majority will attend the gathering up the river.

A delightful afternoon up-the-river party was given this afternoon by the Misses Schofield of 302 Milton avenue, the event being in honor of Miss Alice Kinsley and Miss Francis Clifford of Oshkosh. The trip was made on the steamer Columbia and luncheon was served.

NOTES GATHERED ON A HOT DAY

OT? Well yes, it was hot today. In fact, it was very hot, about the hottest that it has been all summer. At noon a trusty thermometer hanging on the north side of an honest man's house, said it was 94 degrees above zero. The prediction for today and tonight, however, was "fair and followed by showers" so it may be more comfortable tomorrow.

THE TRAVELING MEN ARE PLEASED

Change in Time Allows Them to Get Home Saturdays.

VERY Janesville and Southern Wis. traveling man said one local "drummer" today "will appreciate the move made by the Wisconsin Central railway, which allows the Bower City men who go north, to get home Saturday afternoon at a reasonable hour. A change in time sends a train out at Stevens' Point at 1 o'clock p. m. This connects at Waukegan and allows the 'boys' to reach Janesville at 5:45. Under the old rule, they could not get home until 10:35 p. m. The Central Ry. is always the first road to accommodate the traveling men and they appreciate it."

RAVED FIVE DAYS IN HIS JAIL CELL

MAN HAS A BAD CASE OF DELIRIUM TREMENS.

Imagines All Sorts of Strange Things and Opiates Had No Effect Until Last Night—Stood a Heavy Stove On End With Ease—Suspects Are Jailed.

GRAVE YARD yawns beneath! See the skulls of the dead men! Isn't it awful? Look and see for yourselves! Wo weee! The court is in session! I plead not guilty! Let the witnesses be sworn! The clerk will read the complaint! Mr. Jackson, I refuse to adjourn! Contempt? Yes! I'll go to jail! See that red snake, with the green tail! He'll bite me!"

For 120 hours a prisoner at the Rock county jail has kept this up. Shrieks, yells and curses have rent the air, and opiates have no effect upon him.

Beloit whiskey is the cause of the attack, and it is about the worst case of delirium tremens that can be imagined. The victim is a man who used to live here, and spent most of his time in jail. Then he took a liquor cure, and for a time was as sober as a judge. He went to Beloit, became a policeman and made a good officer, but the old enemy conquered him again. Now he is a wreck, and Dr. Joe Whiting is giving him constant attention.

Had No Sleep For Five Days.

For five days and five nights, the man had no sleep, but kept up a constant raving. He would imagine that he was in court, and would address himself to Judge Phelps, Clerk Williams and District Attorney Jackson. When his ravings became violent, Sheriff Appleby would enter the cell.

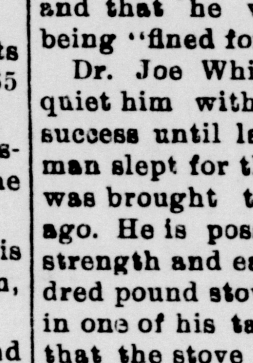

"Hear ye! Hear ye! Hear ye!" the sheriff would call, with all the dignity he could command. "This court stands adjourned until tomorrow morning!"

Perhaps the demented man would "consent to adjourn," and remain quiet for some time, or perhaps he would want to "go on with the case" and howl himself hoarse in declaring that the session must continue and that he was not afraid of being "fined for contempt."

Dr. Joe Whiting has attempted to quiet him with opiates but without success until last night. Then the man slept for the first time since he was brought to jail nearly a week ago. He is possessed of superhuman strength and easily stood a two hundred pound stove "on his head" when in one of his tantrums. He declared that the stove was a grave yard and that it was full of skulls. The case is a sad one.

THEY CAUGHT TWO SUSPECTS.

Police Take Men Who Could Not Explain Their Acts.

HE police were summoned by telephone, to the C. & N. W. yards at 10:30 last night and the result was that two Chicago men were lodged in jail on suspicion of being thieves. At the jail they gave the names of William Brown and Samuel Bush. When captured in the freight yards by Chief Acheson and Officer Hogan they had a new riding saddle and two new bridles in their possession. When closely questioned both told different stories. The police believe that they have two men who are "wanted." Both are fairly well dressed.

CLINTON UP IN ARMS BECAUSE OF FIRES

PECULIAR FACTS ABOUT THE RECENT BLAZES.

Four Have Occurred Since Last Fall; All On Sunday Night; and on the Fourteenth, Fifteenth or Sixteenth of the Month—Was Kerosene Used On Taylor's House?

FIRES of incendiary origin at Clinton, have stirred up the residents of that village, and if the guilty party is caught—well, something will happen.

There are some peculiar coincidences about the blazes.

All have occurred on Sunday nights, and all have evidently been the work of fire bugs. The record since November is as follows:

TWO BARN—November 15, 1895. ILLISH HAY BARN AND FEED MILL—February 16, 1896.

WOODARD BLOCK, and half a dozen others—March 14, 1896.

HOTEL AND DEPOTS—June 14, 1896.

Two fires, it will be seen, have occurred on the fourteenth of the month, one on the fifteenth, and one on the sixteenth.

There were many theories as to how the last fire started, but it is generally contended that it was "set."

Smelled Kerosene Oil.

The fire started in the second story of the hotel in the rear of the building and is thought by some happened by the overturning of a lamp in the room of one of the guests.

This theory is not generally accepted, but the incendiary is strongly believed as the most likely cause of the origin of the fire. Those who were first in discovering the blaze claim the building had been saturated with kerosene, as the smoke first issuing from the building had a strong smell of the fluid, and it was but a few minutes until the whole rear portion of the hotel was enveloped in flames. Both the hotel and the passenger depot were reduced to ashes in a short time. The platform is all gone from about the main entrance of the hotel to the west end of the depot. The whole town presents a desolate appearance which has been wrought by the fires since last fall.

The Kodet....

The Kodet was especially designed for those who want a glass plate camera which can be easily adapted to use with roll films, but do not care to invest in an expensive instrument. The Kodets are made in two styles, the Regular and Folding.

They are as compact and complete as any glass plate hand camera made, and by the addition of a roll holder are immediately convertible into film cameras with a capacity of 48 exposures. The roll holders are not trappy attachments, but when in use are carried inside of the camera and completely out of the way.

They are interchangeable with our plate holders, and as they are provided with a dark slide the change from plates to films can be made as readily in the field as the change from one plate holder to another.

The Kodets of either style are focused either with the index or on the ground glass, and will carry three double plate holders or a roll holder in the space in the back.

A 4x5 Kodet for using plates costs \$15.00. We would be pleased to show you one.

TYRANNOUS SOCIALISM.

A Monstrous Proposal That the Liberals Are Bound to Resist.

No system which the brain of man has ever devised carries that tyrannous repression so far as socialism, says the Fortnightly Review. Liberty, let me repeat, means the power of a man to make the most and best of himself; to develop fully his personality. This is his aboriginal, imprescriptible, inalienable right, its limit being that the corresponding right of others is not infringed. And private property is realized liberty.

It is, in its first idea, the guaranty to an individual person of what has been wrought, through the exercise of his personality, by labor and abstinence. It is essential to the development and maintenance of personality in this work-a-day world. It is requisite for the very existence of the family. But socialism, even in its mildest type, means the confiscation of private property, the destruction of the family and the annihilation of individual freedom.

It proposes to remedy what it calls—not altogether without reason—the slavery of labor, not by vindicating the liberty of the laborer, but by establishing a system of universal servitude. This monstrous proposal the liberal party in England is bound to resist even, if necessary, to the shedding of blood. And to the shedding of blood the matter is not unlikely to come in the long run. For socialism is rather a sect than a party. Its votaries are animated by a spirit akin to that of religious enthusiasm. They are largely of the stuff of which martyrs are made.

Assuredly, the privilege of sealing their testimony with their blood should be withheld from them as long as possible. But it may not be always possible. And as assuredly the preservation of the fair frame of civilization is of far more account than are the lives of a few fools and fanatics.

She Was an Illustrator.

The teacher of a primary school in the mission read "The Old Oaken Bucket" to the little tots and explained it to them very carefully. Then she asked them to copy the first stanza from the blackboard, and illustrate as the artists illustrate a story in the daily papers. One little girl handed in her verse with several little dots between two of the lines, a circle, half a dozen dots and three buckets.

"Lizzie, I don't understand this," said the teacher. "What is that circle?"

"Oh, that's the well."

"And why have you three buckets?"

"One is the oaken bucket, one is the iron bucket, and the other is the bucket that hung in the well."

"Then what are all of those little dots?"

"Why, those are the loved spots which my infancy knew."

A Test of Fame.

"Say, Mame," said Maud, "was Julius Caesar what you would call a really great man?"

"Of course. How can you ask such a question?"

"Well, I never heard him called the Napoleon of anything."—Washington Star.

"I had terrible pains in my abdomen and back;

could hardly drag myself around; had the 'blues' all the time, was cross to every one; but Lydia E. Pinkham's Vegetable Compound has entirely cured me of all my pains.

The doctor may be a good old man, but even so, medical examinations and the "local application" treatment are as abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalid's Hotel and Surgical Institute, at Buffalo, N. Y. Doctor Pierce's Favorite Prescription, a remedy for all derangements of the reproductive organs, has been in actual use for more than thirty years. It cures every form of "female weakness."

New Orleans Lies Low.

New Orleans is the city of the least altitude. It is at the sea level, some parts of it are actually below the level of the Mississippi, and protected from overflow by levees.

Cremating the Killed in Battle.

The advance of military science in the invention of weapons of greater precision and fatality, such as the improved rifles and the Maxim gun and the use of smokeless powder in battle, have led students of warfare to apprehend a greater carnage in combat and directed attention anew to the disposal of the dead on the battlefield. Recently the German emperor called for the opinions of the medical staff of the war department on the question of using cremation to disincumber a battlefield after a sanguinary combat. An invention of this kind would be of supreme interest to all governments as coming from a nation that most carefully studies the art of war. The idea is not novel, however, nor is Germany the first government to consider it. At the international congress in Paris twenty-eight years ago Dr. Bertoni of Genoa proposed cremation as the humanest and, from a sanitary point of view, the soundest method of disposing of the dead in battle and his arguments were supported by Dr. Castighini, another Italian sanitarian.—Exchange.

Irish New Year's Cakes.

In County Antrim, in Ireland, among the Scotch-Irish, oaten bannocks with a hole in the middle, like our doughnuts, are especially baked for gift cakes. In other Irish counties a cake is thrown outside the door on New Year's eve to keep out danger the ensuing year. In the Isle of Man a curious belief and custom existed till the middle of this century. In each home the housewife smoothed the ashes over the kitchen floor just before stepping into bed. If there were found in the morning on the surface of the ashes anything resembling a footprint that pointed toward the door, it indicated a death in the family within a year. But if the heel of the boot were toward the door it was a sure sign that the family would be increased.—Ex.

\$2.50! \$2.50!

Ladies' Special Tan and Black Shoes!

Scarcity of money, stories of hard times, rumors of harder times, makes us think that perhaps there are people who can't afford to buy footwear---at least they can't get the kind that cost them \$3.50, \$4.00 and \$5.00. We want to assure all these people that it is not necessary to make such expenditures.

For \$2.50 we can give the ladies a shoe---either tan or black---that will give perfect satisfaction, both in wear and style.

The Tan is of the rich chocolate color, the pretty 20th Century last, sharp toe, and the make-up that is as tasty as any shoe made, none excepted.

The Black is the same only, of course, in color. We are making a specialty of \$2.50 ladies' shoes, and the lines we now show are nearer perfection in shoe making than many higher priced goods.

IF IT IS NEW WE ARE SURE TO HAVE IT.
